linnstone

New 8055

Yukon

FULL BODY

Spec 126*63" / 138*79" Polished

Crystalline Silica Free Available For Special Order

Yukon mirrors the untamed power and serene beauty of the Yukon River, capturing nature's essence in its purest form. The surface, reminiscent of freshly fallen snow, features graceful, flowing veins that evoke glaciers carving their path through ancient stone, leaving behind the marks of time. These glacier-like lines embody nature's strength, imparting a sense of calm and refreshing tranquility to any setting. Yukon brings the grandeur and peaceful stillness of the wilderness indoors, much like the Yukon River, gently meandering and inspiring a spirit of discovery and timeless serenity.
