126*63" / 138*79" Polished

Crystalline Silica Free Available For Special Order

Etna, inspired by the legendary and ever-active Mount Etna in Italy, captures the breathtaking grandeur of volcanic landscapes. Its deep black base, accented with bold golden veining, resembles molten lava dancing under a starlit sky, radiating the fiery brilliance of life. The flowing patterns whisper of nature's untamed energy and transformative power, seamlessly blending raw strength with ethereal elegance. The golden veins trace the celestial paths of light and fire, exuding an aura of timeless magnificence and grandeur.
